# Joint Accreditation PARS Activity XML File Specification

## Introduction

XML stands for eXtensible Markup Language. It is a computer language designed to structure and transmit data over the Internet. The Joint Accreditation Program and Activity Reporting System (JA-PARS) includes a data upload tool that accepts XML files formatted to conform with the Medical Education Metrics (MEMS) XML standard created by the MedBiquitous Consortium. This tool enables JA-PARS to collect information in a manner that is consistent with the data communications standards being adopted by medical education content providers. Accredited providers whose CME activity tracking systems can export data to XML files may wish to explore this option for transmitting records to JA-PARS.

These instructions are intended for an audience that is familiar with XML, specifically, the information technology staff who support CME departments. It is beyond the scope of this document to describe how to create or edit XML files in general, or how to export data from specific CME tracking systems.

The batch upload function in JA-PARS offers providers the ability to add or update multiple activity records from a single file containing data that has been exported from another tracking system. In order to successfully upload data, it is critical that providers properly “map” the necessary data from their system into the file format described in this document. Technical understanding of creating XML-formatted files is assumed.

The activity data web service for JA-PARS uses the same XML record format as the batch upload detailed in this document. Unlike the batch upload, only a single activity record can be submitted in each call to the web service. Submitting multiple activity records will require multiple calls to the web service.

The JA-PARS XML Activity File Specification is an adaptation of the MEMS standard that has been created by the MedBiquitous Consortium. MEMS in turn incorporates another XML specification, the Healthcare Learning Object Model (Healthcare LOM), which is also published by MedBiquitous. Further information on these specifications can be found at <https://www.medbiq.org/standards>, and it is recommended that implementers review this material in detail.

The JA-PARS XML activity record format is also a descendent of the Accreditation Council for Continuing Medical Education (ACCME) Program and Activity Reporting System (PARS) record format. Several fields in the specification have labels that reflect this derivation. The original names of these fields are retained in the JA-PARS specification to reduce the amount of re-work required of users who have previously mapped their data into the PARS record format.

Below is a discussion of several key concepts about the way JA-PARS manages activity records. Understanding these concepts will be helpful throughout your work with the system.

**Adding and Updating activity records:** In a significant change from previous versions of the API, the v3 JA-PARS activity XML record format includes an element for specifying the activity record transaction. Every record must include “Add”, “Update”, or “Delete”. JA-PARS will reject records with transactions that conflict with data in the system such as an “Add” for an activity that already exists, or an “Update” or “Delete” for an activity that cannot be matched given the information included in the record.

**Activity record status:** Another significant change from previous versions of JA-PARS is the use of multiple activity status values. These statuses are briefly described below. This document will detail the data required for an activity record to have the “Active” and subsequent statuses. Note that the “Closed” status is intended to indicate that the activity has been completed and that all information in JA-PARS for it is final. Once an activity record is set to “Closed”, JA-PARS will not accept further record transactions for that activity. The “Closed” status requires an explicit indication to be sent to JA-PARS.

## Joint Accreditation PARS Activity XML File Specification

**DRAFT:** A draft activity is generally an activity that is not yet available to learners, or that does not have enough information provided in JA-PARS to be considered active.

**ACTIVE:** As long as the end date of the activity is not in the past, and if all required fields have been entered, the activity will have Active status.

**READY TO CLOSE:** Once the end date of an activity is in the past, and if all fields have been entered, the activity status changes automatically to Ready to Close status.. At this point, you can enter your final total learner counts and provide final details around commercial support and close your activity.

**CLOSED:** Once all required fields are complete and you have updated your total learner counts, you will actively change the status of your activities to Closed. The system does not do this, since it doesn't know when your learner counts and other details are final. You will be able to set activities to closed status individually, in bulk manually by selecting the applicable activities or via any of the batch or web services methods.

**Program Summary:** The ACCME requires that providers complete an annual Program Summary, which summarizes programmatic income for the year. The Program Summary cannot be completed using batch upload or API functionality, and must be manually completed in JA-PARS.

**Maintenance of Certification:** Accredited CME providers have the option to register activities for those certifying boards participating in CME in support of MOC using the JA-PARS XML batch upload process. Activities being registered for MOC must fulfill the requirements for the given board's MOC program.

Requirements for CME in support of MOC: <http://accme.org/cme-support-moc>

Technical resources for submitting data: <http://accme.org/submitting-data-batch-upload-or-web-services>

## Version History

Version	Date	Notes
2.0	09/02/2021	Updated document to detail the new JA-PARS v3 XML record format.
1.3	01/25/2021	Added values for reporting registered dieticians and dietetic technicians
1.2	09/10/2020	Added values for reporting dentists and allied dental staff
1.1	01/09/2020	Added element for indicating Merit-Based Incentive Payment Systems (MIPS) activities

# Joint Accreditation PARS Activity XML File Specification

## XML File Specification Details

This document is a guide for those who wish to upload activities to JA-PARS using XML-formatted data. This document explains our system’s usage and customization of the **Medbiquitous MEMS** and **Healthcare LOM** standards and specific business rules and requirements.

Some key points:

1. Changes to the format of the Medbiquitous [MEMS](#) standard are limited to 1) the addition of a new super root element called ACCMEActivities, 2) the inclusion of customizations in the [XtensibleInfo](#) element, and 3) the uniqueElementName attribute is necessary for healthcaremetadata.
2. Any rules specified in the **Business Rules** column will be validated by JA-PARS during the XML file upload process. These rules will not be enforced through the use of the Medbiquitous XSD templates.
3. This specification only includes the data elements that will be captured and uploaded into JA-PARS. For complete documentation on all data elements that are supported by the Medbiquitous standard, please refer to the Medbiquitous website <https://www.medbig.org/standards>
4. Any data elements present in the XML file that are not used by JA-PARS must still conform to the structure and rules specified in the Medbiquitous XSD template. However, these elements will not be loaded into JA-PARS.
5. For Boolean types, only lowercase “true” and “false” are accepted as validly formatted.

### ACCME Activities

ACCMEActivities is a new super root element for the MedicalEducationMetrics element. This super root element was created to allow more than 1 MedicalEducationMetrics element to be contained within a single XML file.

Element Name	Description	Min Occurs	Max Occurs	Type	Enumeration	Business Rules
<b>ACCMEActivities</b>	Super root element that contains 1 or more instances of MedicalEducationMetrics.	1	1	complex	-	-

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Min Occurs	Max Occurs	Type	Enumeration	Business Rules
<b>MedicalEducationMetrics</b>	Medbiquitous-defined container element for each activity. More than one may be present within the ACCMEActivities container. Refer to <a href="#">medicalEducationMetrics</a> for sub-elements within this container.	1	Unbounded	MedicalEducationMetricstype	-	-

### MedicalEducationMetrics

The XSD template for this element is unchanged from the Medbiquitous specification. Any special JA-PARS data rules will be enforced by the file upload process, not via the XSD template.

Element Name	Description	Business Rules
<b>MedicalEducationMetrics</b>	Container element for each activity. More than one may be included within the ACCMEMedicalEducationMetrics container.	Multiple MedicalEducationMetrics elements can be included only in batch files. Records submitted using the web service are limited to a single MedicalEducationMetrics element.
<b>ReportDescription</b>	Container element	-
ReportingStartDate	First day of the reporting period for the metrics described for the activity. This is expected to be January 1 <sup>st</sup> of the activity reporting year.	-The system will only import the Year portion and will ignore the date portion of <i>ReportingStartDate</i> . -The period covered by the ReportingStartDate and ReportingEndDate should reflect the year(s) the activity will be offered for CME and have learners reported.
ReportingEndDate	Last day of the reporting period for the metrics described for the activity. This is expected to be December 31 <sup>st</sup> of the activity reporting year.	- The system will ignore the date portion of <i>ReportingEndDate</i> .
<b>ActivityDescription</b>	Container element. Refer to <a href="#">ActivityDescription</a> for sub-elements within this container	-
<b>Lom</b>	Container element. Refer to <a href="#">lom</a> for sub-elements within this container.	-

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Business Rules
<b>healthcareMetadata</b>	Container element Healthcare Learning Object Metadata Standard.	-
<b>healthcareEducation</b>	Container element. Refer to <a href="#">healthcareEducation</a> for sub-elements within this container.	-
<b>ParticipationMetrics</b>	Container element. Refer to <a href="#">participationMetrics</a> for sub-elements within this container.	-
<b>XtensibleInfo</b>	Container element that contains customdata elements. Refer to <a href="#">XtensibleInfo</a> for sub-elements within this container.	-

### ActivityDescription

The XSD template for this element is unchanged from the Medbiquitous specification. Any special JA-PARS data rules will be enforced by the file upload process, not via the XSD template.

Element Name	Description	Business Rules
<b>ActivityDescription</b>	Container element	-
<b>Lom</b>	Container element. Refer to <a href="#">lom</a> for sub-elements within this container	-
commercialSupportAmount	<p>Indicates the amount of commercial support received from a single source. This amount must be a whole number (no decimal values allowed).</p> <p>This sub-element has the following attributes:</p> <ol style="list-style-type: none"> <li>1. <i>currency</i> – Currency of the amount indicated.</li> <li>2. <i>supportSource</i>- Organization that is the source of commercial support.</li> </ol>	<ul style="list-style-type: none"> <li>- JA-PARS is interested in commercial support amounts in USD currency only. All other income specified in non-USD currencies will be ignored.</li> <li>- Include a separate instance of this element for each source of monetary commercial support.</li> <li>- JA-PARS expects a USD currency amount <math>\geq 0</math>.</li> <li>- See <a href="#">Appendix G</a> for a list of commercial support source names.</li> </ul>

### Lom

The XSD template has not been modified for this element. Any special JA-PARS data rules will be enforced by the file upload process, not via the XSD template.

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Business Rules
<b>Lom</b>	Container element. This element is from the IEEE Learning Object Model (LOM) standard.	-
<b>healthcareMetadata</b>	Container element Healthcare Learning Object Metadata Standard.	-
<b>general</b>	Container element.	-
<b>identifier</b>	Container element.	<p>JA-PARS requires at least 2 <i>identifier</i> elements per activity.</p> <ul style="list-style-type: none"> <li>- "Provider Activity ID" must be used when adding a new activity record. Provider Activity ID should be an internal identifier that your system assigns to uniquely identify an activity. Either "Provider Activity ID" or "ACCME Activity ID" can be used when updating an existing activity record.</li> <li>- "URL" is required for an activity to have the status of "active".</li> <li>- "ACCME Activity ID" is assigned by JA-PARS. It can be included for updating or deleting an existing activity record</li> </ul>
Catalog	Type of unique identifier.	-
Entry	Unique identifier for the activity	<ul style="list-style-type: none"> <li>- If catalog = "ACCME Activity ID", it is assumed that <i>entry</i> is unique in the entire system.</li> <li>- If catalog = "Provider Activity ID", it is assumed that <i>entry</i> is unique within the provider organization.</li> <li>- If catalog = "URL", the entry should be the full web address for a page with information about the CME activity, or the web page for the accredited CME provider or its parent organization, if the activity does not have an individual URL. The URL value does not need to be unique for each activity record.</li> </ul>
title	Name of the learning activity.	-
description	Description of the content of the activity	Maximum characters allowed is 2500
keyword	<p>Element for collecting the MOCA Content Outline data. For the list of ABA MOCA Content Outline entries, please visit <a href="http://www.theaba.org/PDFs/MOCA/MOCAContentOutline">http://www.theaba.org/PDFs/MOCA/MOCAContentOutline</a> or <a href="https://www.accme.org/publications/aba-moca-excel-content-outline">https://www.accme.org/publications/aba-moca-excel-content-outline</a></p>	<p><b>This element and corresponding sub-elements are only used when registering an activity for ABA MOCA.</b></p> <p>-Either one or two Content Outline entries are required for activities registered for MOCA. Each Content Outline selection requires three separate keyword elements in the XML record, one each with the id values "Level 3 ID", "Tag ID", and "Free Text". All three keyword elements must appear for each Content Outline entry.</p>

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Business Rules
id	Attribute used to designate the portion of the Content Outline entry included in this keyword.	-“Level 3 ID”: the string value for the keyword with this id is the level 3 identifier number for the MOCA Content Outline entry. - “Tag ID”: the string value for the keyword with this id is the tag identifier number for the MOCA Content Outline entry. Reporting a tag is optional, but a keyword for “Tag ID” must be included. The string value is left blank if no tag is reported. - “Free Text”: the string value for the keyword with this id is the brief text description of the educational content. The string value is left blank if free text is not being reported.
source	Attribute used to indicate the Content Outline selection to which this keyword belongs.	-“01_ABAMCO” for the three keywords associated with the first Content Outline selection. - “02_ABAMCO” for the three keywords associated with a second Content Outline selection.
string	Attribute of keyword.	-Values to include for each keyword vary, please see the description of the id attribute above.

## Joint Accreditation PARS Activity XML File Specification

### HealthcareEducation

The XSD template has not been modified for this element. Any special JA-PARS data rules will be enforced by the file upload process, not via the XSD template.

Element Name	Description	Business Rules
<b>healthcareEducation</b>	Contains healthcare specific metadata for educational offerings.	-
<b>credits</b>	Container element.	- Include a separate <i>credits</i> element for each type of credit for which the activity is being offered
nonAccreditedProvider	The educational provider for this activity that is not the accredited provider. Jointly provided activities have a non-accredited provider. Repeat instances of this element for activities that have multiple joint providers	- If an activity is jointly provided (has an <i>activitySponsorship</i> value of "joint"), include a separate <i>nonAccreditedProvider</i> element for each joint provider. - If multiple credit elements are included in the activity, only include <i>nonAccreditedProvider</i> in the first credit element.
activityCertification	Identifies the category of credit awarded for the activity by the accredited medical education organization.	-The following values are accepted by JA PARS:  IPCE: for interprofessional continuing education credits AMA PRA Category 1: for CME credits Nursing: for nursing credits Pharmacy: for pharmacy credits AAPA Category 1: for physician assistant credits Psychologist: for psychology credits Optometrist: for optometry credits Social Worker: for social worker credits Dentist: for dentistry credits Dietetic CPEU: for dietician credits Athletic Training CEU: for athletic trainer credits
numberOfCredits	Number of continuing education credits associated with the activity	- Include a decimal value. Credits may be offered in increments of .25 or greater.
<b>activityLocation</b>	Indicates geographical location where an in-person activity takes place	-
city	Indicates city where in-person activity takes place	-Check that city is present depending on the <i>activityFormat</i> value

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Business Rules
stateorprovince	Indicates state where in-person activity takes place.	-Check that stateorprovince is present depending on the <i>activityFormat</i> value -If <i>country</i> is the USA, check that state is a valid two-letter state
country	Indicates country where in-person activity takes place.	-The country should be a valid 3-letter country code. See <a href="#">Appendix C</a> for a list of country codes.
startDateTime	Indicates the date and time an activity begins.	-JA-PARS will ignore the time portion of startDateTime,  Note: startDateTime value must include BOTH the date and time components even though the validation process ignores the time portion of the value. Example: 2021-10-01T00:00:00
endDateTime	Indicates the date and time an activity ends, or is no longer available for use by learners.	-JA-PARS will ignore the time portion of endDateTime,  Note: endDateTime value must include BOTH the date and time components even though the validation process ignores the time portion of the value. Example: 2022-09-30T00:00:00
activitySponsorship	Providership. Valid values are "direct" or "joint"	- Definition: A directly provided activity is planned, implemented and evaluated by the accredited provider. Include co-provided activities (provided by two accredited providers) in this category if you are the accredited provider awarding the credit. In contrast, a jointly provided activity is one that is planned, implemented and evaluated by the accredited provider and one or more non-accredited entities.

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Business Rules
activityFormat	<p>Indicates the type of learning activity. There can be more than one activityFormat defined for an activity.</p> <p>JA-PARS expects that the activityFormat value used is one of the recognized activity types and, if applicable, sub-categories.</p>	<p>-<i>activityFormat</i> instances where the activity type value is NOT one of the recognized types will be IGNORED and the entire activity record will NOT be processed by JA-PARS.</p> <p>- The system will check for a recognized activity types (also see <a href="#">Appendix B</a>):</p> <ul style="list-style-type: none"> <li>Live Course</li> <li>Regularly Scheduled Series</li> <li>Enduring Material</li> <li>Journal CME/CE</li> <li>Manuscript Review</li> <li>Test-Item Writing</li> <li>Committee Learning</li> <li>Performance/Quality Improvement</li> <li>Internet Searching and Learning</li> <li>Learning from Teaching</li> <li>Other/Blended Learning</li> </ul> <p>Note: not all activity types are eligible for MOC for every board. See each board's requirements for MOC at <a href="http://accme.org/cme-support-moc">http://accme.org/cme-support-moc</a>.</p>
commercialSupport	<p>Indicates the existence of commercial support from a manufacturer of a commercial product.</p> <p>NOTE: Use the <a href="#">activityDescription.commercialSupportAmount</a> sub-element to specify commercial support source and amount for an activity</p>	
targetAudience	<p>Container element for listing the types of professionals and the medical practice specialties for which the activity content is relevant.</p>	<p>The <i>targetAudience</i> element and at least one profession sub-element are required. Additionally, at least one specialty sub-element is required if the activity is being registered for MOC.</p>
profession	<p>Name of a profession for which the activity content is relevant.</p>	<p>Valid professions are Physician, Nurse, Pharmacist, Pharmacy Technician, Physician Assistant, Psychologist, Optometrist, Social Worker, Dentist, Allied Dental Staff, Registered Dietitian, Dietetic Technician Registered, Athletic Trainer</p>

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Business Rules
specialty	Name of a specialty for which the activity content is relevant. Used in activity records which are being registered for MOC.	The list of valid specialties for MOC registration appears in <a href="#">Appendix E</a> .

### ParticipationMetrics

The XSD template has not been modified for this element. Any special JA-PARS data rules will be enforced by the file upload process, not via the XSD template.

Element Name	Description	Business Rules
<b>participationMetrics</b>	Container element.	-
participantsByCategory	<p>Defines the number of participants by category. The XSD file allows 0 or more participantsByCategory elements.</p> <p>This sub-element has the following attributes:</p> <ol style="list-style-type: none"> <li><i>category</i>-Indicates the participant category described.</li> </ol>	<p>-JA PARS will accept <i>participantsByCategory</i> instances that have a category value of “nurse”, “physician”, “physician assistant”, “psychologist”, “optometrist”, “social worker”, “dentist”, “allied dental staff”, “registered dietitians”, “dietetic technicians registered”, “athletic trainers” or “other”. Other instances will be ignored.</p> <p>-Only one instance of each category will be processed. Repeated instances of a category will be ignored.</p> <p>-The “physician” category definition: the number of MD’s and DO’s that participated in the activity. Include residents in this category.</p> <p>- The numbers of pharmacist and pharmacy technician participants should not be reported in JA-PARS. Participation information for these learners is collected separately in the CPE Monitor system-</p> <p>-The “other” category definition: the number of participants other than those captured in the categories defined above. Do not include residents in this category. Residents should be counted as physicians.</p>

### XtensibleInfo

ACCME extended the XtensibleInfo element to include fields for data that ACCME wants to capture, but are not part of the Medbiquitous standard.

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Min Occurs	Max Occurs	Type	Enumeration/Valid Values	Business Rules
<b>XtensibleInfo</b>	Container element.	0	1	Container	-	-
<b>IsInterprofessional</b>	Indicates whether this is an IPCE activity	0	1	Boolean	true, false	
<b>CommendationTags</b>	Container element	0	1	Container		For optional use by CME providers.
<b>CommendationTag</b>	Indicates a commendation criterion for which the provider may choose to use this activity as an example.	1	Unbounded	Text	<ul style="list-style-type: none"> <li>- Engages Teams</li> <li>- Engages Patients/Public</li> <li>- Engages Students</li> <li>- Advances Data Use</li> <li>- Addresses Population Health</li> <li>- Collaborates Effectively</li> <li>- Optimizes Communication Skills</li> <li>- Optimizes Technical/Procedural Skills</li> <li>- Creates Individualized Learning Plans</li> <li>- Utilizes Support Strategies</li> <li>- Improves Performance</li> <li>- Improves Healthcare Quality</li> <li>- Improves Patient/Community Health</li> </ul>	If the <i>CommendationTags</i> container is present, at least one <i>CommendationTag</i> element is required.
<b>InKindSupports</b>	Container element for in kind support data.	0	1	Container	-	-
<b>InKindSupport</b>	Container element. This sub-element has the following attributes: 1. <i>Source</i> - Source of commercial support.	1	unbounded	Container	true, false	Include a separate instance for each source of in-kind <a href="#">commercial support</a> .
<b>DeliveryMethods</b>	Container element for listing DeliveryMethods	0	1	Container	-	-

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Min Occurs	Max Occurs	Type	Enumeration/Valid Values	Business Rules
<b>DeliveryMethod</b>	Describes the instructional delivery method for certain types of activities	1	2	Text	Valid options for Live Course or Regularly Scheduled Series format activities: <ul style="list-style-type: none"> <li>- In-Person</li> <li>- Live-Streamed</li> </ul> For Enduring Material format activities: <ul style="list-style-type: none"> <li>- Online</li> <li>- Print/Other</li> </ul>	If the <i>DeliveryMethods</i> container is present, at least one <i>DeliveryMethod</i> element must be included.
<b>MeasuredOutcomes</b>	Container element for MeasuredOutcome elements	0	unbounded	Container		Include a separate MeasuredOutcomes element for each MeasuredOutcome element
<b>MeasuredOutcome</b>	Describes the intended outcomes for the activity	1	1	String	Valid options are: <ul style="list-style-type: none"> <li>- Learner Competence</li> <li>- Learner Performance</li> <li>- Patient Health</li> <li>- Community Health</li> <li>- Learner Knowledge</li> </ul>	Include only one MeasuredOutcome per MeasuredOutcomes container.
<b>MeasurementType</b>	Describes how the activity outcomes are measured	1	2	String	Valid options are: <ul style="list-style-type: none"> <li>- Objective</li> <li>- Subjective</li> </ul>	
<b>MOCRegistrations</b>	Container element for one or more maintenance of certification registrations	0	1	Container	-	Optional; not required for activity registration, but required for activity to be registered for MOC
MOCRegistration	Container element	0	unbounded	Container	-	One per certifying board. Include one <i>MOCRegistration</i> element for each certifying board for which MOC will be offered.
boardName	Indicates name of the specialty board for which the MOC is being registered	0	1	Text	ABA, ABIM, ABO, ABOHNS, ABP, ABPATH, ABS	Must be a board currently accepting activities registered in JA-PARS.
mocPoints	Indicates the number of MOC points for which the activity is registered.	0	1	Decimal	=> 0.25	Must be a multiple of .25

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Min Occurs	Max Occurs	Type	Enumeration/Valid Values	Business Rules
MOCcreditType	Indicates the board MOC categories for which the activity is registered	0	Unbounded	String	Varies by certifying board	Business rules for MOC credit types vary by board. Refer to <a href="#">Appendix F</a> for a list of MOC credit types by board.
CreditClaimDate	The cut-off date for participants to request credit for completing the activity.	0	1	Date/time	YYYY-MM-DDT00:00:00	JA-PARS will not accept records with completion dates after the listed credit claim date. JA-PARS will ignore the time portion of the date/time value.
ForPublicList	Indicates whether this activity is to be included in the published list of activities made available to physicians	0	1	Boolean	true, false	
FeeForParticipation	Indicates whether a fee is associated with learner participation in the activity	0	1	String	Yes No, it's free Variable	
ActivityRegistration	Indicates whether the activity is available to all potential learners or if participation is limited (e.g., to staff of the education provider's institution).	0	1	String	Open to all, Limited	
IsMeritBasedIncentivePaymentSystem	Indicates whether the activity qualifies for MIPS	0	1	Boolean	true, false	
REMS	Container element for REMS information	0	1	Container		Include only if the activity is designated for instruction on an FDA Risk Evaluation and Mitigation Strategy program.
REMSType	Indicates which REMS the activity content addresses	0	1	String	Opioid Analgesic, Mycophenoalate	
REMSRelatedIdentifier	For reporting of special grant identifiers related to this REMS designation	0	1	String		Use the RPC ID formatted as EG-#####.###.
activityRecordAction	The intended transaction type for this activity record.	1	1	String	Add, Update, Delete	

## Joint Accreditation PARS Activity XML File Specification

Element Name	Description	Min Occurs	Max Occurs	Type	Enumeration/Valid Values	Business Rules
closeActivityRecord	Indicates whether this activity record transaction includes final information about the activity.	1	1	Boolean	true, false	A value of "true" for this field will preclude further updates to the activity record. Activities must have an end date in the past and all activity information completed for a value of "true" to successfully validate.
PharmacyActivityType	Indicates which pharmacy activity type this activity represents	0	1	Text	Knowledge, Application, Practice	Required for activities offered for pharmacy credit. Must be a single value.
PharmacyActivityTopic	Indicates which pharmacy activity topic this activity covers	0	1	Text	01-Disease State Management/Drug Therapy 02-AIDS Therapy 03-Law Related to Pharmacy Practice 04-General Pharmacy 05-Patient Safety 06-Immunizations 07-Compounding	Required for activities offered for pharmacy credit. Must be a single value.
PharmacyLiveDates	Container element for PharmacyLiveDates data	0	1	Container		
PharmacyLiveDate	Container element for data required for live pharmacy activities	0	unbounded	Container		
LiveDate	Date and start time of this instance of a live pharmacy activity	0	1	Date	Date/time value in format YYYY-MM-DDThh_mm_ss	Example: 2022-01-31T00:00:00

# Joint Accreditation PARS Activity XML File Specification

## Appendices

### A: Saving and closing Activities

The table below provides details on the data the PARS System requires for submitting an activity record and for closing an activity record. A closed activity record cannot be edited further.

Field Name	Data is Required in Field:	
	To save Active record	To close out activity record
<a href="#">ReportingStartDate</a>	Yes	Yes
<a href="#">ReportingEndDate</a>	Yes <i>Note: This field is required by the MedicalEducationMetrics specification, but it will not be displayed on the JA-PARS system.</i>	Yes <i>Note: This field is required by the MedicalEducationMetrics specification, but it will not be displayed on the JA-PARS system.</i>
<a href="#">identifier</a>	Yes	Yes
<a href="#">title</a>	Yes	Yes
<a href="#">startDateTime</a>	Yes	Yes
<a href="#">endDateTime</a>	Yes	Yes
<a href="#">city</a>	Required if the ActivityFormat is one of the following: <ul style="list-style-type: none"> <li>- Live Course</li> <li>- Regularly Scheduled Series and DeliveryMethod is "In-Person"</li> </ul> For other ActivityFormats data should not be entered	Required if the ActivityFormat is one of the following: <ul style="list-style-type: none"> <li>- Live Course</li> <li>- Regularly Scheduled Series and DeliveryMethod is "In-Person"</li> </ul> For other ActivityFormats data should not be entered
<a href="#">stateorprovince</a>	Required if country is USA and the ActivityFormat is one of the following: <ul style="list-style-type: none"> <li>• Live Course</li> <li>• Regularly Scheduled Series and DeliveryMethod is "In-Person"</li> </ul> For other ActivityFormats data should not be entered	Required if country is USA and the ActivityFormat is one of the following: <ul style="list-style-type: none"> <li>• Live Course</li> <li>• Regularly Scheduled Series and DeliveryMethod is "In-Person"</li> </ul> For other ActivityFormats data should not be entered

### **U.S. Territories / Regions:**

For the following U.S. territories / regions, the country code of USA within the [country](#) element should be used along with the applicable U.S. State abbreviation within the [stateorprovince](#) element.

Country	Country Code	U.S State Abbreviation
American Samoa	USA	AS
Federated States of Micronesia	USA	FM
Guam	USA	GU
Marshall Islands	USA	MH
Northern Mariana Islands	USA	MP
Puerto Rico	USA	PR
Palau	USA	PW
U.S. Virgin Islands	USA	VI

## Joint Accreditation PARS Activity XML File Specification

### D: Registering an Activity for Maintenance of Certification (MOC)/Continuing Certification (CC)

Accredited CME providers can register activities for a participating board's Maintenance of Certification (MOC)/Continuing Certification (CC) program using the PARS XML batch upload process, as long as they meet the requirements outlined in the board's program guide. Complete information about CME for MOC and links to each board's program guide is available at <http://accme.org/cme-support-moc>.

Registering an activity for MOC is optional for the provider. If an activity is not being registered for MOC, then the MOC fields cannot be included in the activity record.

Some activity types cannot be registered for specific boards. Acceptable activity types are listed in each board's program guide accessible through [the ACCME website](#).

The fields below must be present in the XML for each activity that is being registered for MOC.

- a. LOM
  - i. **identifier**: an additional identifier element of container type "URL" is required for reporting an activity URL.
- b. Healthcare Education
  - i. **targetAudience** must contain at least one "specialty" element
  - ii. **endDateTime** is required
- c. Extensible Information
  - i. **MOCRegistrations** must contain at least one "MOCRegistration" element
  - ii. **MOCRegistration** must contain:
    1. **specialtyBoard** with the name of a valid specialty board (valid specialty boards are: ABA, ABIM, ABO, ABOHNS, ABP, ABPATH, ABS)
    2. **mocPoints** with a number of at least 0.25 representing the number of MOC points.
    3. At least one **MOCcreditType** with the value of valid credit type for the specialty board (listed in [Appendix F](#)).
  - iii. **FeeForParticipation** must be included
  - iv. **ActivityRegistration** must be included

# Joint Accreditation PARS Activity XML File Specification

## E: MOC specialties by board

### **American Board of Internal Medicine (ABIM) list of specialties**

These values are used in the specialty sub-element when reporting activities registered for ABIM MOC.

<b>Specialty</b>
Adolescent Medicine
Adult Congenital Heart Disease
Advanced Heart Failure and Transplant Cardiology
Cardiovascular Disease
Clinical Cardiac Electrophysiology
Critical Care Medicine
Endocrinology, Diabetes, and Metabolism
Gastroenterology
Geriatric Medicine
Hematology
Hospice and Palliative Medicine
Hospital Medicine
Infectious Disease
Internal Medicine
Interventional Cardiology
Medical Oncology
Nephrology
Pulmonary Disease
Rheumatology
Sleep Medicine
Sports Medicine
Transplant Hepatology

### **American Board of Anesthesiology (ABA) list of practice areas**

These values are used in the specialty sub-element when reporting activities registered for ABA MOCA.

<b>Specialty</b>
Ambulatory/Outpatient
Cardiac Anesthesia
Critical Care Medicine
General Operative Anesthesia
Hospice and Palliative Medicine
Neuro Anesthesia
Obstetric Anesthesia
Pain Medicine
Pediatric Anesthesia
Regional Anesthesia/Acute Pain
Sleep Medicine
Thoracic Anesthesia
Trauma

### **American Board of Pediatrics (ABP) list of interest areas**

These values are used in the specialty sub-element when reporting activities registered for ABP MOC.

<b>Specialty</b>
Adolescent Medicine
Child Abuse Pediatrics
Clinical Informatics
Developmental-Behavioral Pediatrics
General Pediatrics
Hospice & Palliative Medicine
Hospital Medicine
Medical Toxicology

## Joint Accreditation PARS Activity XML File Specification

Specialty
Neonatal-Perinatal Medicine
Neurodevelopmental Disabilities
Pediatric Cardiology
Pediatric Critical Care Medicine
Pediatric Emergency Medicine
Pediatric Endocrinology
Pediatric Gastroenterology
Pediatric Hematology-Oncology
Pediatric Infectious Diseases
Pediatric Nephrology
Pediatric Neurology
Pediatric Pulmonology
Pediatric Rheumatology
Pediatric Transplant Hepatology
Professionalism/Patient Safety/Other Skills
Sleep Medicine
Sports Medicine

### American Board of Ophthalmology (ABO) list of practice areas

These values are used in the specialty sub-element when reporting activities registered for ABO MOC

Practice Areas
Comprehensive/General Ophthalmology
Cataract/Anterior Segment
Cornea/External Disease
Glaucoma
Neuro-Ophthalmology and Orbit
Oculoplastics and Orbit
Oncology
Pathology
Pediatric Ophthalmology/Strabismus
Retina/Vitreous
Refractive Management/Intervention
Uveitis
All Practice Areas

### American Board of Otolaryngology-Head & Neck Surgery (ABOHNS) list of practice areas

These values are used in the specialty sub-element when reporting activities registered for ABOHNS MOC

Practice Areas
Allergy
Facial Plastic & Reconstructive Surgery
Head & Neck
Laryngology
Otology
Neurotology
Pediatric Otolaryngology
Rhinology
Sleep Medicine
General Otolaryngology

## Joint Accreditation PARS Activity XML File Specification

### American Board of Pathology (ABPath) list of practice areas

These values are used in the specialty sub-element when reporting activities registered for ABPath CC

Practice Areas
All Practice Areas (e.g. ethics)
Blood Bank/ Transfusion Medicine
Breast
Cardiovascular
Chemical Pathology
Clinical Pathology
Cytopathology
Dermatopathology
Endocrine
Female Reproductive
Forensic Pathology
GI (incl. Liver, Pancreas, Biliary)
Head & Neck/ Oral
Hematology (Blood, BM)
Hematopathology (LN, Spleen)
Hemostasis & Thrombosis/Coagulation
Infectious Diseases/ Medical Microbiology
Lab Management
Male Genital
Medical Director
Molecular Genetic Pathology
Neuropathology (incl. Neuromuscular)
Other
Patient Safety
Pediatric Pathology
Placenta
Pulmonary, Mediastinum
Renal/Medical Renal
Soft Tissue & Bone
Surgical Pathology
Transplant Pathology
Urinary Tract

### American Board of Surgery (ABS) list of practice areas

These values are used in the specialty sub-element when reporting activities registered for ABPath CC

Practice Areas
Complex General Surgical Oncology
Hand Surgery
Hospice & Palliative Medicine
Pediatric Surgery
Surgical Critical Care
Vascular Surgery
General Surgery

## Joint Accreditation PARS Activity XML File Specification

### F: Credit types for MOC registration

Each board participating in CME in support of MOC has defined one or more credit types specific to the MOC program. The requirements for each of these types can be found in the board's program guide, which is accessible at <http://accme.org/cme-support-moc>. These types can be indicated in the XML XtensibleInfo element **MOCCreditType**. MOC registration for each board requires at least one element indicating the appropriate credit type. The corresponding credit types are indicated below.

Board Name	MOC Credit Type	Additional Business Rules
American Board of Anesthesiology	Medical Knowledge	
	Patient Safety	Patient Safety can only be submitted in combination with another credit type
American Board of Internal Medicine	Medical Knowledge	
	Practice Assessment	
	Patient Safety	Patient Safety can only be submitted in combination with another credit type
American Board of Ophthalmology	Lifelong Learning	All ABO MOC activities must at minimum meet the requirements of Lifelong Learning. Lifelong Learning is required for ABO MOC registration.
	Self-Assessment	
	Improvement in Medical Practice	
	Patient Safety	
American Board of Otolaryngology – Head and Neck Surgery	Self-Assessment	
	Improvement in Medical Practice	
	Patient Safety	Patient Safety can only be submitted in combination with another credit type
American Board of Pathology	Lifelong Learning	All ABPath MOC activities must at minimum meet the requirements of Lifelong Learning. Lifelong Learning is required for ABPath MOC registration.
	Improvement in Medical Practice	
American Board of Pediatrics	Lifelong Learning and Self-Assessment	

## Joint Accreditation PARS Activity XML File Specification

American Board of Surgery	Accredited CME	All ABS CC activities must at minimum meet the requirements of Accredited CME. Accredited CME is required for ABS CC registration.
	Self-Assessment	

## Joint Accreditation PARS Activity XML File Specification

### G: Commercial Supporter Source List

### H: List of Error Codes

Code	Description
101	Activity record action was not specified.
102	Activity record action invalid.
103	Add action has duplicate of existing activity ID.
104	Record not found. Update action has unknown activity ID.
105	Record not found. Delete action has unknown activity ID.
106	Activity could not be deleted. Participant records exist for this activity.
107	Activity record is a duplicate for an activity submitted to Board through non-ACCME methods and cannot be reported through PARS.
200	Missing number of AMA credits
202	Missing ACCME Activity ID.
203	Missing Activity title.
204	No specialties included in record.
205	Missing Activity start date.
206	Missing MOC points.
